Together, we'll discover what service and cost problems can be solved

Flexible Service Options:

You get to decide what coverage days & times are needed for your equipment

Certified Services:

R2v3, ISO9001, ISO14001, ISO45001, R2v3 certified and SAE AS5553 compliant.

About Us

Founded in 1990 and recognized by Gartner, XSi helps federal agencies with their IT Lifecycle Services and Support. Services begin with the installation of new technology as well as de-installation, moving, consolidating, onsite disk wiping & destruction, IT Asset Disposition (ITAD) of legacy equipment, including resale or recycling. In addition, XSi provides lower-cost, Third Party Hardware Maintenance for installed models and extends the life of legacy, enterprise-brand servers, storage, network hardware and other devices, including UPS systems and supercomputers. XSi sells to federal agencies, System Integrators, Global 2000 Enterprises, OEMs, distributors, channel clients and partners. XSi helps federal clients deploy a **Hybrid Hardware Support** model to save important hardware budget dollars – which are often re-purposed for more important mandates or initiatives.

Hardware Service Features & Options

- No Forced Tech Refresh: Support for post-warranty, End-of-Support or End-of-Life hardware
- 360,000 IT Infrastructure Systems Maintained, 850,000 items in stock, 235,000 spare parts delivered every year
